

Providing 25 Years of Virus Protection

MADE IN THE USA

Capability Statement

www.cybersoft.com

Founded 1988, **CyberSoft** took the industry by storm with the VFind UNIX antivirus product. Not only was it the first anti-virus scanner for UNIX, it was the first heterogeneous (multi-platform) virus scanner, as well as the first scanner to incorporate a full virus description language. We live in a dangerous world where the automation of processes from military battle management to global financial transactions are vulnerable. Our mission is to protect these systems and to do it better than anyone else in the world. We provide UNIX and Linux server security as well as antivirus and malware protection for critical systems.

CAGE Code: 03RL6 | **DUNS:** 793306077 | **Phone:** (610) 825-4748

Core Competencies

Operating System Virus Protection Software UNIX, Linux, and Solaris Systems Cyber Security Experts

- ✓ Information Technology
- ✓ Multi-platform Anti-Virus Software
- ✓ Linux & Unix Research and Development Solutions

Specialists in the Removal and Prevention of:

- ✓ Spyware
- ✓ Adware
- ✓ Trojans
- ✓ Droppers
- ✓ Key Loggers
- ✓ Macro Malware
- ✓ Phishing Attacks
- ✓ ...and many others

VSTK Turbo featuring VFind Daemon

- ✓ For unmatched parallel scanning performance; or create a centralized scanning server. [Click here to learn more.](#)

Ready and Proven for Cross Domain Solutions

- ✓ Due to the high security requirements of cross domain information transfers, only the highest quality malware checking applications are permitted for use within these solutions. CyberSoft VSTK has been evaluated and identified as the best product available on the market to fill this roll.
- ✓ Out of the box compliance with government standards, regulations and guidelines pertaining to Information Technology products and services.

Section 508 Compliant

- ✓ Cybersoft websites and products are tested using SortSite to fully implement the U.S. Access Board's final accessibility standards for electronic and information technology.

Past Performance

Department of Defense

39 Total Contracting Actions
Top Agencies: U.S. Air Force (26), U.S. Navy (13)
Details on FPDS.gov: [DOD Contracting History](#)

Department of the Treasury

33 Total Contracting Actions
Top Agencies: Internal Revenue Service
Details on FPDS.gov: [IRS Contracting History](#)

Department of Homeland Security

8 Total Contracting Actions
Top Office(s): Federal Law Enforcement Training Center
Details on FPDS.gov: [DHS Contracting History](#)

Department of Transportation

7 Total Contracting Actions
Top Agencies: Federal Highway Administration
Details on FPDS.gov: [DoT Contracting History](#)

Differentiators

- ✓ Industry Pioneer in heterogeneous (multi-platform) anti-virus
- ✓ Cyber Security experts with 25+ Years of industry experience
- ✓ Architecture designed to counter 30+ real world threat types
- ✓ A+ Comprehensive product training & top tier tech. support
- ✓ Developed the first anti-virus scanner for UNIX in 1988
- ✓ Daily Wildcore and Falsehit in house testing and oversight
- ✓ 28 U.S. Patents – 68 patents pending
- ✓ Member Information Security Vendors Association (ISVA)
- ✓ All Unix & Linux systems supported
- ✓ Windows 2000 and later supported
- ✓ Complete toolkit; modular and not monolithic antivirus

NAICS & PSC Codes
